

DOMETIC COMBICOOL RF 60 Freestanding absorption refrigerator 12 V / 230 V

Reference: 9105203243

The free-standing absorption refrigerators from the RF Series are completely silent and usefully compact. The models incorporate features such as a freezer or no freezer, they run on three power sources, they deliver high performance and there is a range of sizes. For awnings, holiday homes or log cabins, there is a fridge from this range or the RGE Series that will suit.

This silent, freestanding 3-way absorption refrigerator has secure locks and flexible shelves. A three-way power supply means it will also follow you to all corners of the Earth.

3-way absorption cooling

As it sits silently, the powerful absorption cooler of the Dometic CombiCool RF 60 can run on 12 volts, 230 volts and gas. Offering flexibility in shelf positions, convenient door trays and a secure lock. In other words, everything you need. On top of that, it will follow you to all corners of the Earth with its three-way – AC, DC and gas – energy supply.
