

DOMETIC COMBICOOL RF 62 Freestanding absorption refrigerator 12 V / 230 V

Reference: 9105203591

The free-standing absorption refrigerators from the RF Series are completely silent and usefully compact. The models incorporate features such as a freezer or no freezer, they run on three power sources, they deliver high performance and there is a range of sizes. For awnings, holiday homes or log cabins, there is a fridge from this range or the RGE Series that will suit.

This silent, freestanding 3-way absorption refrigerator has a spacious freezer and will follow you to all corners of the Earth with its three-way power supply.

3-way absorption cooling

The powerful silent absorption Dometic CombiCool RF 62 cooler can run on 12 volts, 230 volts and gas. Offering flexibility in shelf positions, convenient door trays and a secure lock. In other words, everything you need. On top of that, it will follow you to all corners of the Earth with its three-way – AC, DC and gas – energy supply.
