

DOMETIC COMBICOOL ACX 35 Portable absorption cooler 12 V / 230 V

Reference: 9105204282

Take to the road with the ACX Series of portable coolers for cool food and drink wherever your adventure takes you. This range of portable absorption coolers can be powered by electricity or, if you find yourself in a more remote spot, it can be powered by a portable gas cylinder. A highly effective cooler, the ACX range is the cooler of choice for any adventure.

This absorption cooler gives you maximum freedom in choosing your picnic site. Energy supply guaranteed anywhere it is used.

Cooling wherever you want!

You've found a dream place to stay but there's no way to get there with the vehicle and no mains hook up either. Don't worry, our CombiCool ACX absorption coolers give you maximum freedom in choosing your picnic site. They run on 12 volts in the vehicle and on 230 volts at home or at a campsite. In the great outdoors you simply switch over to gas mode. The ACX 40 G is even more versatile and works on a standard gas cartridge. All three ACX models provide cooling up to 30 °C below the ambient temperature. Another common feature of the ACX family is the elegant aluminium housing with the distinctive lid.

Freedom: cool performance wherever you want

Enjoy the great outdoors even more with the Dometic CombiCool ACX 35. It runs on 12 V DC in the vehicle and on 230 V AC at home or on the campsite. In the great outdoors you simply switch over to gas mode. The cooler comes in an attractive yet sturdy design with a distinctive lid, while the silent operation means it won't disturb you! The evaporator provides space for an ice cube tray (included).
