

CUMMINS ATS-207 C200D5 ATS PANEL MAXIMUM 400A

Reference: C200D5e

CUMMINS ATS-207 C200D5 ATS MAINS/GROUP 400A MAXIMUM SWITCHBOARD

ATS-207

Automatic and manual switching panel, managed by one of the most advanced electronic controllers in its category, with 128x64 pixel display for displaying electrical measurements and alarms.

The controller manages generator start-up and switching via remote contact.

Suitable to handle loads up to 400A, the Cummins ATS-207 C200D5 can be adapted to CUMMINS ground generator sets.

Standard composition:

- Metal case RAL7035 IP55
- Nickel-plated power lock for longer life, reliability and quality
- Auxiliary terminal block
- Protection fuses
- Ready for automatic battery charging
- Alarm Buzzer
- Amperometric transformers on request
- TE809-ATS Controller
