

DOMETIC INVERTER SINEPOWER DSP2012

Reference: 9600002549

Inverter DOMETIC SINEPOWER DSP2012 2000W 12V

DOMETIC SINEPOWER DSP2012 pure sine wave inverter, designed to transform 12 V battery voltage into pure 230 V alternating current.

The DOMETIC SINEPOWER DSP2012 inverter guarantees reliable operation of electrical devices up to 2000 W with the vehicle battery. The integrated protection circuits prevent damage from overload, overheating, over and undervoltage. Automatic standby saves energy.

New user interface

DOMETIC SINEPOWER DSP2012 inverter with attractive design, ease of use and control.

Main features of the Dometic Sinepower DSP2012 inverter:

Pure sine wave output voltage 230 V AC, compatible with sensitive electronic devices

Wide range of DC input voltages, ideal for vehicles with standard EURO 6 emissions

Energy saving standby mode with automatic reactivation function

Easy horizontal or vertical mounting

Automatic restart after overload or over/undervoltage

Silent fan with load and temperature control

The remote control panel is supplied

The DOMETIC SINEPOWER DSP2012 inverter is suitable for sensitive household appliances such as electric toothbrushes, laptops, TVs or DVD players that require pure 230 V alternating current, such as home sockets. Exactly what your pure sine wave inverter provides. The compact devices offer excellent value for money: energy-saving standby mode, intelligent protection circuits to prevent damage in the event of overload and an incredibly quiet fan.

The DOMETIC SINEPOWER DSP2012 transforms the 12 V battery voltage into pure 230 V AC, compatible with all types of devices, including sensitive ones. Thanks to the wide range of input voltages, it also works well in modern vehicles with intelligent alternators. Integrated protection circuits prevent damage from overload, overheating, over and undervoltage. If it is not subject to load, the inverter switches to energy-saving standby mode. It reactivates automatically as soon as necessary. Other advantages: quiet fan, easy mounting, remote control panel included as standard.

Technical features of the DOMETIC SINEPOWER DSP2012 inverter:

Input voltage: 12V

Output voltage: 230 V

Wave type: pure sine wave

Output frequency: 50 Hz

Continuous power: 2000 W

Length: 450 mm

Width: 330 mm

Height: 160 mm
Dry weight: 5.2 Kg

Other inverters such as the DOMETIC SINEPOWER DSP2012 can be found in our catalogue.

Technical Sheet

Frequency (Hz)	50
Output voltage (V)	230
Length (mm)	450
Width (mm)	330
Height (mm)	160
Input voltage (V)	12
Kind of wave	Pure Sinusoidal
Continuous power (W)	2000
Weight (Kg)	3.36
