

IDROMAR WATERMAKER SUPERMINI 60

Reference: SUPERMINI 60

IDROMAR WATERMAKER SUPERMINI

Watermaker Idromar SUPERMINI, part of the MINI COMPACT series, is an excellent Watermaker with an hourly production of fresh water at 25°C equal to 60 liters/hour and a daily production at 25°C equal to 1400 liters/day.

With a fresh water production that varies from 65 to 180 liters/hour, the Watermaker of the MINI COMPACT series are the Idromar proposal for medium-small boats (from 15 to 25 meters), where an intensive and continuous use is not always necessary. The Watermaker of this range are compact, in decomposable version and share the same functionality, practicality and homogeneity of the materials.

One of the main features that the Idromar SUPERMINI Watermaker has in common with those in its range is the use of 316L stainless steel: from the smallest details such as screws, bolts and nuts, the entire frame, the vessels that contain the membranes and the high pressure pump head are made of stainless steel to eliminate the phenomenon of corrosion.

The Idromar SUPERMINI Watermaker provides a practical and reliable source of fresh water for boaters with high supply requirements. The Idromar SUPERMINI Watermaker offers you absolute water independence for various diversions such as extended voyages, ocean crossings or fishing.

The Idromar SUPERMINI Watermaker systems are small and efficient able to fit into the tightest of spaces thanks to their complete decomposability. < / >
