DOMETIC PERFECTPOWER PP602 INVERTER 550W

DOMETIC PERFECTPOWER PP602 is an inverter that transforms the voltage of the vehicle battery at 12 V into 230 V alternating current.

DOMETIC PERFECTPOWER PP602 is a high quality inverter, its characteristic, innovative and versatile look, numerous functions and comfort: DOMETIC PERFECTPOWER inverters offer everything you can expect from a high-end device. Units up to 550 watts are particularly light and compact. These units convert 12 or 24 volt battery voltage into 230 volt alternating sine wave modified sine wave voltage, making them suitable for many different applications and many commonly used devices such as hairdryers, thermal blankets and electric shavers. Assembly is quick and easy. The adjustable fixings adapt to all needs. Those who want to activate the inverter conveniently from the dashboard can alternatively use the additional connection to an external switch.

The DOMETIC PERFECTPOWER PP602 generates a modified sine wave. This means that the voltage produces a square wave similar to pure sine wave. This results in a stable output voltage for amplitude and frequency, suitable for many electrical devices. For more sensitive electronic consumers, choose a pure sine wave inverter.
