

ASTURO K1000 ELECTRIC PUMP 2,2KW

Reference: 0710002K

ELECTRIC AIRLESS DIAPHRAGM PUMP ASTURO K1000 2,2KW

Pump Asturo K1000 electric airless diaphragm with electric motor with a power of 2,2KW ideal for do-it-yourself work of not excessive severity.

The airless pump uses materials such as paints and enamels with a maximum viscosity of 100 DIN-S. The pump is made of plastic, with internal stainless steel details, making it easy to transport thanks to its low weight of 59kg.

Intuitive use of the discharge valve, the product does not need much maintenance thanks to its compactness. It mounts a 230V electric motor that generates a power of 2,2KW, allowing a free delivery of 9 lt/min.

Integrated in the pump with 2,2KW power there is a suction and recirculation system. The Asturo K1000 airless pump is complete with a sanitization kit for environments consisting of 7.5 m long 1/4" high pressure hose and 1/4" connection. K90 gun with 1/4" fitting with maximum pressure of 207 bar. MKII speedy self-cleaner with SPxx nozzle, high pressure spray gun, max 250 bar. Includes spray nozzle (mod SFC 13 60) and 1/4" swivel fitting to connect to the pipe. A 5 liters drop tank with return hose completes the supply.

Sanitizing spray nozzle. Included in the PLA spray gun and lances is a sprayer for sanitizing agents suitable for use in hazardous and heavy duty environments; exceptional in fighting pathogens such as bacteria, mold and viruses. The airless pump is suitable for medium to large environments, such as offices, industrial buildings, schools, tensile structures, common areas of condominiums, buses, vans, trucks, small and medium boats.

TECHNICAL CHARACTERISTICS OF THE ELECTRIC DIAPHRAGM AIRLESS PUMP ASTURO K1000

Free delivery: 9 l/min
Motor Voltage: 230 V
Motor frequency: 50Hz
Power: 2,2KW
Maximum nozzle size: 7 - 31 inches
Maximum pressure: 220 bar
maximum high pressure hose length: 60 m
Length: 850 mm
Width: 600 mm
Height: 720 mm
Weight: 59Kg
