

HONDA Outboard BF 20 SRTU 43 cm Shaft With Remote 14.9 kW 350 cm³

Reference: BF 20DK2 SRTU

HONDA OUTBOARD BF20DK2 SRTU SHAFT 56CM

Honda BF20DK2 SRTU is an incredibly practical and portable 15 or 20 horsepower outboard engine with well-placed retractable handles. They are perfect for any boat that needs power in a small size.

The engine that comes with the Honda BF20DK2 4-stroke stays quiet both when starting and when increasing its power; they are so quiet that you can take them to their full power, without having to raise your voice to speak. Honda's unique vibration-absorbing rubber mounting system gives a great impression of smoothness.

During forward travel, the Honda BF20DK2's propeller is driven normally through the water, as with all marine engines. In the reverse direction, however, Honda engines make all the difference. This unique reverse exhaust system directs bubbles out of the propeller so it can "grip" the water. The result is immediate response and very precise control.

Honda BF20DK2 SRTU outboards have a reverse lever that allows you to shift gears with your fingertips. Everything is much easier to use and better positioned than other outboards even for left-handed people. In addition, the soft-grip, twist-lock throttle grip minimizes operating effort, increasing handling.

Honda BF20DK2 SRTU outboards are available with rudder and remote control options. The remote control option displays warning lights for engine, oil pressure and overheating. It also generates an audible signal to get your attention in case anything happens while you're focusing on other tasks.

TECHNICAL CHARACTERISTICS HONDA BF20DK2 SRTU

Net Power (kW): 14.9
Net Power (Hp): 20
Displacement: 350 cm³
Shaft length: short
Dry weight (Kg): 58.5
Starter: Electric / Manual
Ignition system: Electronic PGM-IG
Type of control Remote
Setup and engine lifting: Manual / Manual 5 positions
Transom height (mm): 433
Length (mm): 650
Width (mm): 350
Height (mm): 1110
Bore x stroke: 59 x 64 mm
Engine Brand: Honda
Engine Type: OHV, 4 stroke
Number of cylinders: 2

Speed at full throttle (rpm): 5000-6000
Cooling system: Water
Battery charge capacity (A): 6
Propeller Rotation: Standard

Technical Sheet

Fuel	Gasoline
Engine	OHV, 4 stroke
Ignition	Electronic PGM-IG
Starting system	Manual / Electric
Engine capacity (cm ³)	350
Number cylinders	2
Cooling	Water (with thermostat)
Bore x stroke (mm)	59 x 64
Reduction ratio	2.08
Rpm at full throttle (rpm)	5000 - 6000
Appearance and engine lifting	Manual / Manual 5 position
Transom height (mm)	433
Net power (kW)	14.9
Fuel tank capacity (L)	12
Length (mm)	650
Width (mm)	350
Height (mm)	1110
Dry weight (Kg)	58.5
Shaft Length	S
Controls	Remote
