

## HONDA OUTBOARD BF 150D LCRU LONG SHAFT 150 HP

Reference: BF 150D LCRU

### HONDA OUTBOARD BF150D LCRU LONG SHAFT 150 HP

Honda BF150D LCRU are outboard engines perfect for professional use, they are reliable, compact and lightweight complete with PGM-IG electronic fuel injection system.

Just press the start & stop button to hear the deep, distinctive sound of the engine. Hand on the throttle and off you go, as the revs increase, these Honda outboards combine boating comfort with exhilarating high-performance thrust with extremely low vibration levels

VTEC (Variable Valve Timing and Lift Electronic Control) technology available in the HONDA BF150D Outboard LCRU varies intake valve lift and timing ensuring optimal performance. This technology ensures smooth and stable idle speeds at low speeds, while increasing valve lift and timing at high speeds to provide a wider and more optimized torque curve.

The Honda BF150D LCRU outboard features BLAST™ ready-to-start technology that gets the engine up to rate in seconds. The BLAST™ system delivers high torque even at low rate by unleashing powerful thrust from startup. The ECU automatically advances the ignition timing, while simultaneously increasing the fuel/air ratio to give more thrust from low speed.

Honda BF150D LCRU is equipped with special ECOMo poor mixture combustion control system ensures significant fuel economy right from speed and performance. Once at RPM, much less fuel is consumed.

#### TECHNICAL CHARACTERISTICS HONDA BF150D LCRU

Net Power (kW): 110.3  
Net Power (Hp): 150  
Displacement: 2354 cm<sup>3</sup>  
Shank Length: Long  
Starting: Electric  
Ignition system: Electronic PGM-IG  
Fuel supply: PGM-FI (programmed electronic injection)  
Engine trim and lift: Electric  
Bore x Stroke: 87 x 99mm  
Engine: Honda DOHC 4-cylinder in-line VTEC™  
Rotation at full throttle (rpm): 5000-6000  
Cooling system: Water  
Battery charge capacity (A): 40  
Propeller rotation: counter-rotating  
Transom Height (mm): 508  
Length (mm): 845  
Width (mm): 580  
Height (mm): 1665

Dry weight (Kg): 217

## Technical Sheet

Fuel	Gasoline
Engine	Honda DOHC 4 Cylinder Inline VTEC
Ignition	Electronic PGM-IG
Starting system	Electric
Engine capacity (cm <sup>3</sup> )	2354
Number cylinders	4
Cooling	Water (with thermostat)
Bore x stroke (mm)	87 x 99
Reduction ratio	2.14
Rpm at full throttle (rpm)	5000 - 6000
Appearance and engine lifting	Electric
Transom height (mm)	508
Net power (kW)	110.3
Length (mm)	845
Width (mm)	580
Height (mm)	1665
Dry weight (Kg)	217
Shaft Length	L
Controls	Remote
