

WHISPER W-SQ PRO 15 MOBILE GENERATOR 15KVA SINGLE-PHASE STAGEV AVR

Reference: 41207020-STV

WHISPER W-SQ PRO 15 SINGLE-PHASE MOBILE GENERATOR 15KVA STAGEV AVR

WHISPER W-SQ PRO 15 Single-phase mobile generator with diesel-powered Kubota V1505 BG **StageV** engine delivers a power of 15KVA, **complete with AVR voltage regulator.** [p >](#)

The vehicular generator is powered up, equipped as standard with a robust acoustic capsule with anti-corrosion metal plating and insulating material for optimal sound reduction. Hearing protection is a must, equipped with easy access to all sides of the generator and offers access to all maintenance-related components from one side only.

Thanks to the electrical stabilizer of AVR technology that works at very low distortion, WHISPER W-SQ PRO 15 delivers constant current loads without voltage peaks that could damage electrical and electronic devices. Another advantage of the inverter is; that of working with variable engine revolutions, based on the need; current to be supplied, optimizing fuel consumption, gas emissions and wear of mechanical parts. Automatically operate air conditioning/heating systems, heavy tools, compressors, cookers, lights, refrigeration and cooling systems, computers and more. All at the same time, depending on the load.

VOLTAGE REGULATOR

WHISPER W-SQ PRO 15 is equipped with AVR, which, when mounted on an alternator, allows a generator set or generator to stabilize the output voltage and does not ruin the connected sensitive electronic equipment. In the modern market, inverters have taken a huge step forward in technology and performance; therefore, the world's top genset and alternator brands are moving along this line of thinking.

An important feature of the SQ Pro range is the 7-inch color touch screen control that will be linked with WhisperCare. This allows complete control of the W-SQ Pro 15 generator system. A perfect solution for instant and/or historical information with an attractive display.

STAGEV / EPA / TIER 4 EMISSION REGULATIONS

WHISPER W-SQ PRO 15 is equipped with STAGEV "mobile" motorization, as required by European Regulation 2016/1628. These new motorizations make it possible to exponentially reduce the emissions of particulate matter and nitrogen oxides delivered by the generator to the environment, and ensure a 200% reduction in environmental impact compared to standard motorizations.

DeepSea Control Features (Optional)

- Features; group parallel included (ask for more details)
- Provides secure and easy offsite monitoring (optional)
- Allows you to quickly resolve fault conditions and provide instant system information to aid in preventive maintenance
- Graphic displays showing, graphs, meters, power display, graphs and engine status information
- The information is displayed clearly and in a universal format for all users

- Language of your choice

Technical characteristics WHISPER W-SQ PRO 15:

Phase Type: Single Phase
Maximum Power: 15.6 KVA / 12.5 KW
Continuous Power: 15 KVA / 12 KW
Fuel: Diesel
Voltage: 230 V
Frequency: 50 Hz (60 Hz)
Engine: Kubota V1505 BG
Emissions standard: StageV certified / EPA / Tier 4
Number of cylinders: 4
Engine speed: 1500 rpm
Acoustic power: 55 dBA
Voltage regulator: AVR
Length: 1145 mm
Depth: 625 mm
Height: 690 mm
Net weight: 410 Kg

Technical Sheet

Phase	Single phase
Maximum power single phase (KW)	12.5
Continuous power single phase (KW)	12
Maximum power single phase (KVA)	15.6
Continuous power single phase (KVA)	15
Fuel	Diesel
Frequency (Hz)	50
Voltage (V)	230
Engine	Kubota V1505 BG
Emissions Regulations	STAGEV / EPA / TIER 4
Engine rpm (rpm)	1500
Number cylinders	4
Cooling	External radiator cooling
Acoustic pressure	55 dB(A)
Length (mm)	1145
Width (mm)	625
Height (mm)	690
Dry weight (Kg)	

Silenced	Yes
Super silenced	Yes
Product type	Generator
Voltage regulator	AVR
Engine manufacturer	Kubota
