

WHISPER M-GV8 MARINE GENERATOR 8KVA SINGLE-PHASE INVERTER STAGE V

Reference: 41005005

WHISPER M-GV8 MARINE GENERATOR 8KVA SINGLE-PHASE INVERTER STAGE V

WHISPER M-GV8 Single-phase marine generator with Kubota Z482 StageV diesel-powered engine delivers 8KVA, complete with INVERTER voltage regulator.

The WHISPER M-GV8 marine generator is designed with a soundproof cabin that makes it supersilenced. Excellent accessibility to the interior compartment makes maintenance work easier even with the genset installed in cramped quarters.

WHISPER M-GV8 is a combination of a diesel engine with an integrated alternator and an inverter, hence the name Genverter. The key feature of this technology is the output quality combined with the peak power capacity. Within a certain window of the diesel engine's rotational speed, the PMG provides the correct quality to run electrical equipment, such as tools, compressors, washing machines, air conditioning, electric cooking devices, and various other AC appliances.

Featuring a compact and lightweight design, the Whisper M-GV8 is easy to install and operate, taking up minimal space on board. Using Inverter Stage V technology, the generator WHISPER M-GV8 is highly efficient and offers consistent power distribution, reducing fuel consumption and noise and vibration levels.

VOLTAGE REGULATOR

WHISPER M-GV8 is equipped with an Inverter, which, when mounted on an alternator, allows a generator WHISPER M-GV8 to stabilize the output voltage and does not ruin sensitive connected electronic equipment. In the modern market, inverters have taken a huge step forward in technology and performance; therefore, the world's top genset and alternator brands are moving along this line of thinking.

STAGEV EMISSIONS REGULATIONS

The WHISPER M-GV8 Marine Generator is equipped with "mobile" STAGEV engines, as required by European Regulation 2016/1628. These new motorizations make it possible to exponentially reduce the particulate and nitrogen oxide emissions delivered by the generator WHISPER M-GV8 to the environment, and ensure a 200% reduction in environmental impact compared to standard motorizations.

Specifications WHISPER M-GV8

Phase Type: Single Phase
Maximum Power: 8.5 KVA / 6.4 KW
Continuous Power: 8 KVA / 6 KW
Fuel: Diesel
Voltage: 230 V
Frequency: 50 Hz

Engine: Kubota Z482
 Emission standard: Stage V / EPA / Tier 4
 Number of cylinders: 2
 Displacement: 479 cc
 Engine RPM: 2400 / 2800 rpm Adjustable
 Fuel consumption: 2.5 l/h at 100% load
 Acoustic power: 56 dBA @ 7 m
 Voltage regulator: Inverter
 Length x width x height (generator): mm 655 x 545 x 600
 Length x width x height (PMG): mm 436 x 196 x 148
 Dry weight (generator + PMG): 154 + 9.9 kg

Technical Sheet

Maximum power single phase (KW)	6.4
Continuous power single phase (KW)	6
Maximum power single phase (KVA)	8.5
Continuous power single phase (KVA)	8
Fuel	Diesel
Frequency (Hz)	50
Voltage (V)	230
Engine	KUBOTA Z482
Emissions Regulations	Stage V / EPA / Tier 4
Engine rpm (rpm)	2400 / 2800 Regolabile
Engine capacity (cm ³)	479
Number cylinders	2
Cooling	Water
Consumption (L/h)	2.5 al 100% del Carico
Acoustic pressure	56 dB(A) at 7 m
Length (mm)	
Width (mm)	563
Height (mm)	600
Dry weight (Kg)	154
Silenced	Yes
Super silenced	Yes
Product type	Generator
Voltage regulator	Inverter

Engine manufacturer

Kubota

Phase

Single phase
