MOBILE AIR CONDITIONER 21000BTU/H

Mobile air conditioner is the most effective and convenient solution to quickly remove heat and humidity from working environments, improving the well-being and efficiency of operators.

Each mobile air conditioner are independent with no need for external units. Therefore, it does not require installation time and costs. A simple click is all it takes to generate a noiseless flow of cold air concentrated on a specific area, both indoors and in specific work areas outdoors, offering high cooling efficiency even at great distances from the unit.

The air conditioner is equipped with a pair of extendable and flexible conveyors that allow to canalize the cold air at any angle, reaching even difficult and narrow environments with the
