

SCHENKER WIKI 30 PORTABLE WATERMAKER 30 L/H

Reference:

SCHENKER WIKI 30 PORTABLE WATERMAKER 30 L/H

The Schenker Wiki 30 is a reverse osmosis watermaker equipped with 1 carbon 2521 vessel, capable of producing up to 30 L/h of fresh water.

With a production capacity of 30 liters per hour, the Schenker Wiki 30 watermaker is an ideal option for those looking for a reliable source of fresh water without the need for complex installations. Its portable design allows it to be operational in just a few minutes by simply connecting the hoses to the sea and the boat's tank through practical quick-connect fittings.

One of the key advantages of the Wiki 30 is its ease of use and versatility. Operating on 12-24 V and consuming only 110 Watts thanks to an advanced energy recovery system, the Schenker Wiki 30 is highly energy-efficient. A practical and durable carry bag contains the entire unit, making it easy to store in limited spaces such as a locker. An additional bag holds the connection hoses, further enhancing the system's convenience.

This watermaker is particularly suitable for charter or racing boats, where flexibility and ease of use are essential. The Schenker Wiki 30 also proves to be a reliable partner for those who want a backup source of fresh water on board without the complexity of a permanent installation.

TECHNICAL SPECIFICATIONS SCHENKER WIKI 30

Production: 30 L/h
Daily production: 720 L/day
Number of vessels: 1
Vessel type: 2521
Membranes: High-performance tri-polyamide
Pressure regulation: Automatic
Salinity monitoring: Automatic
Power supply: 12 / 24 Vdc
Installed power: 110 W
Length: 715 mm
Width: 228 mm
Height: 310 mm
Weight: 26 kg
