

POLAR DABBSSON POWER STATION 2200W

Reference: DAB45003

the powerful and versatile power station for your adventures

The DABBSSON DBS2300 power station is the ideal solution for those who need a powerful and versatile power source for their adventures. With a maximum power output of 4400W and a capacity of 2330Wh, it can power a wide range of devices, including household appliances, power tools and electronic devices.

Advantages:

- Maximum power of 4400W: enough to power most home appliances, such as portable refrigerators, gensets and power tools.
- 2330Wh capacity: enough to power electronic devices for several days.
- Quick Charge 3.0: recharges the power station in about 1.5 hours.
- 30% higher energy density: results in significant efficiency and a reduction in the weight of the power station (24 kg).
- Fewer contact points: fewer contact points, less heat generated, greater safety and less energy loss.

Uses:

- The DABBSSON DBS2300 power station is ideal for a wide range of activities, including:
 - Camping and hiking: to power electronic devices and power tools.
 - Events and emergency situations: to provide power in the event of a blackout or emergency.
 - Remote work: to power computers and other electrical devices.

TECHNICAL DATA SHEET POLAR DABBSSON POWER STATION 2200W

- Capacity: 2330Wh (44.8V 52Ah)
- Battery type: LiFePO4
- Service life 3500 cycles at 80% - 6500 cycles at 60%
- Management System MPPT Charge Control, BMS
- Dimensions: 432x254.5x303.5 mm
- Working temperature -20°C to 55°C
- Weight: 24 Kg
- Output Sockets
 - AC OUTPUT 120V/240V, 2200W (max 4400W)
 - USB-A OUTPUT Fast charging 3.0, 18W max (1pc) / 5V, up to 2.4A, 12W max per port (2pcs)
 - USB-C OUTPUT 5-20V, up to 5.0A, 100W max (1pc) / 5-20V, up to 1.5A, 30W max (1pc) / Double to 60W max (2pcs)
 - CAR OUTPUT 12.6V 10A
 - DC 5521 OUTPUT 12.6V 4A
 - ANDERSON OUTPUT 12.6V 30A
 - LED 2W
- INPUT SOCKETS
 - Charging socket
 - Solar: 11V-75V, 12A, 600W max (basic model) / 11V-75V, 15A, doubling to 20A 1200W max (extra battery)

AC Socket For Charging 1800W max

Technical Sheet

Maximum power single phase (KW)	4.4
Continuous power single phase (KW)	2.2
Battery type	LifePO4
Weight (Kg)	24
Durata	3500 cicli all'80% / 6500 cicli all'60%
Temperatura Lavoro	da -20°C a 55°C
Sistema Di Gestione	MPPT, BMS
