Secop 12/24Vdcdc 110/240Vac control unit (Exchange)

The dual-mode control unit for marine refrigeration units represents the ideal technological innovation for optimizing the performance of the cooling system onboard vessels. Designed with the utmost attention to the specific needs of the marine industry, this control unit ensures precise control of the cooling water temperature, maximizing energy efficiency and reducing consumption.

Are you looking for a marine air conditioner? [HERE](#) you can find the area dedicated to Vitfrigo marine air conditioners or those of other specialized brands.
