

VITRIFRIGO VF45P Portable Fridge-Freezer

Reference: 1301-0005

VITRIFRIGO VF45P PORTABLE FRIDGE-FREEZER

The VITRIFRIGO VF45P, belonging to the renowned Vfree series, represents excellence in the field of portable refrigerators and freezers designed for special installations. Ideal for yachts, boats, and other applications where space is limited but the need to preserve fresh and frozen food is paramount.

With a total capacity of 45 liters, the VITRIFRIGO VF45P offers an optimal balance between compact dimensions and storage capacity. With its net weight of only 20.5 kg, it is easy to transport and install, ensuring maximum flexibility and convenience.

This versatile product is powered by both DC voltage at 12/24V and AC voltage at 100-240Vac 50/60Hz, offering a wide range of power supply options. With a nominal consumption of only 55W, it is also environmentally efficient, allowing significant energy savings.

The overall dimensions of the VITRIFRIGO VF45P are 410 mm in width, 490 mm in height, and 680 mm in depth, ensuring adequate storage capacity without compromising available space.

The D energy class ensures reduced consumption without sacrificing cooling performance, with an internal temperature range from +10°C to -22°C, ensuring optimal preservation of food and beverages.

The intuitive control panel allows easy temperature and settings control, while the removable cover facilitates access and cleaning. The presence of an internal LED light ensures optimal visibility even in low-light conditions, while the Dual power system allows seamless transition from DC to AC power supply.

This fridge-freezer, the VITRIFRIGO VF45P, therefore represents an ideal choice for those seeking a versatile and reliable product.

The removable basket offers convenient organization of the internal space, allowing food items to be kept orderly and easily accessible.

In summary, the VITRIFRIGO VF45P is the ideal choice for those in need of a portable and versatile fridge-freezer, capable of delivering excellent performance in any context, from maritime navigation to special installations. With its combination of advanced features, compact dimensions, and energy efficiency, it represents a secure investment to meet food preservation needs reliably and conveniently. The VITRIFRIGO VF45P stands out for its reliability and versatility, making it an excellent choice for those demanding superior performance from a portable fridge-freezer.

Technical Specifications VITRIFRIGO VF45P:

Total capacity litres: 45
Net weight: 20.5 Kg
Power supply: 12/24Vdc - 100-240Vac 50/60Hz
Nominal consumption: 55W
Total width: 410 mm.
Total height: 490 mm.
Total depth: 680 mm.
Energy class: D
Internal temperature range: +10°C / -22°C

Technical Sheet

Length (mm)	680
Width (mm)	410
Height (mm)	490
Dry weight (Kg)	20.5
Feed Type	12/24Vdc - 100-240Vac 50/60Hz
Product type	Portable and special installation fridge-freezers
Capacity of the refrigerator (L)	45
Energy class	D
Nominal consumption	55W
Internal temperature	+10°C / -22°C
