SCANGRIP POWERBANK

4000MAH ALUMINIUM POWERBANK WITH BATTERY INDICATOR

Using the latest battery technology, the compact, high quality powerbank is designed for the SCANGRIP I-VIEW 03.5626 headlamp but can be used to recharge any SCANGRIP work lamp and other devices.

The powerbank is designed with a battery and charge indicator. It also features intelligent load detection, which means it automatically switches the power on/off when the load is connected/removed.

The modern, lightweight design makes the powerbank easy and convenient to take with you wherever you go. The housing is made of anodised aluminium for high durability, which means it can withstand the demanding work environment of a workshop, van or construction site.

Powerbank gives additional life to I-VIEW

To increase the operating time of the I-VIEW headlamp, simply attach the powerbank to the flexible clip holder on the headband and connect the cable to the headlamp.

Why you should choose SCANGRIP POWERBANK

- Powerbank designed for SCANGRIP I-VIEW headlamp
- Use to recharge any SCANGRIP work lamp and other devices
- Battery and charge indicator
- Intelligent load detection
- Robust and work-friendly
- Slim and compact design

Technical Specifications SCANGRIP POWERBANK

Charging time (hours): 3.50

Battery capacity: 4000 mAh

Battery type: Li-ion

Charging current(A): 1.60

Operating temperature: -10°C to + 40°C

Battery voltage: 3.65 V

Cable: Spiral cable

Maximum consumption: 3.25 W

Length: 103 mm

Width: 28 mm

Height: 28 mm

Weight: 0.13 kg
