

Hyundai 65136 Petrol 4-Stroke Generator 5 Kw Stage V

Reference: 65136

Hyundai 65136 4-Stroke Petrol Generator

Hyundai Power Generator Petrol 4-Stroke Hyundai 65136 Stage V Petrol Generator ready to light up your energy needs with 5.5 kW. This rugged, Hyundai 65136 4-Stroke Petrol Generator

Hyundai Petrol 4-Stroke Generator Hyundai 65136 Stage V Petrol Generator ready to light up your energy needs with 5.5 kW of pure power. This rugged, portable companion effortlessly powers a wide range of devices, from power-hungry electrical tools to life-saving appliances, ensuring the flow of power even during outages or outdoor escapes.

With a beating heart of 5.0 kW rated, the Hyundai 65136 Stage V 4-Stroke Petrol Generator ensures a steady and reliable flow of energy, powering your devices non-stop, whether at home, work or leisure. The maximum power output of 5.5 kW guarantees the ability to cope with even consumption peaks or start electrically powered devices, making it suitable for even the most demanding users.

Manual starting requires a little physical effort, but provides greater autonomy than electric starting, making the Hyundai 65136 Stage V 4-Stroke Petrol Generator ideal for situations where access to electricity is limited.

Compatibility with the standard voltage and frequency of 230 V / 50 Hz makes it a perfect companion for most homes and construction sites in Europe, while the two sockets, one 16A and one 32A, offer the flexibility to power multiple devices simultaneously, with maximum currents of 16A and 32A per socket, adapting also to the needs of the most demanding applications.

Compatibility with the standard 230 V / 50 Hz voltage and frequency makes it a perfect companion for most homes and construction sites in Europe, while the two sockets, one 16A and one 32A, offer the flexibility of powering multiple devices simultaneously, with maximum currents of 16A and 32A per socket, adapting even to the needs of high-drain devices.

But the Hyundai 65136 Stage V 4-Stroke Petrol generator is not only limited to large appliances The 12 V output makes it perfect for recharging batteries, low-voltage devices or giving a life-saving jolt to those essential gadgets when is scarce.

With a 25-litre fuel tank, the Hyundai 65136 Stage V 4-Stroke Petrol Generator offers a working range of about 9 hours at rated load, allowing you to enjoy the power without worrying about frequent recharging. In addition, the Hyundai AVR voltage regulation system automatically adjusts the output voltage, protecting your devices.

Technical specifications Hyundai:

Rated power (MF): 5.0 kW
Maximum power (MF): 5.5 kW
Phase: Single-phase
Starting: Manual

Voltage - Frequency: 230V/50Hz
Sockets: 1x16A - 1x32A
Fuel tank: 25L
Voltage regulation (AVR): Yes
12V output: Yes
Autonomy: 9 hours
Engine type: Petrol
Displacement: 420 cc
Power: 14 HP
Oil capacity: 1.1L
Net weight: 82 Kg
Product dimensions: 700x540x580 mm

Technical Sheet

Phase	Single phase
Maximum power single phase (KW)	5.5
Fuel	Gasoline
Frequency (Hz)	50
Voltage (V)	230
Engine	4 stroke
Emissions Regulations	Stage 5
Engine capacity (cm ³)	420
Product dimensions (mm)	700 x 540 x 580
Product type	Generator
Weight (Kg)	82
Nominal Power Kw	5
