

FENZI G4 Tank 4900LT

Reference:

FENZI G4 Tank 4900LT

The FENZI G4 Tank 4900LT is a diesel tank approved by the Ministry of the Interior in compliance with D.M. of 22/11/2017. The FENZI G4 4900LT provides the ideal solution for safe and practical diesel storage, with a capacity of 4900 liters, perfect for various needs, including private use and small fleets.

Main Features of FENZI G4:

The FENZI G4 4900LT comes equipped with a set of standard components and accessories that ensure optimal performance and maximum safety:

110% containment basin: Provides complete protection against potential fuel leaks, holding more than the tank's volume.

Dispenser box: Includes an electric pump with a flow rate of 50 or 70 lt/min at 220 Volts, a flow meter, a 4-meter rubber hose, an automatic nozzle, a pump control panel, and a lockable containment cabinet, ensuring efficient diesel dispensing.

Cartridge filter: Ensures the purity of the dispensed fuel, preventing impurities from entering the system.

Various fittings and complete documentation: Each tank comes with all necessary fittings and documentation for safe installation and use.

Construction and Safety of FENZI G4:

The FENZI G4 4900LT is coated with standard green paint, providing resistance to weather conditions and an aesthetically pleasing appearance. Among its safety and functionality features, we find:

3" bronze quick-lock fill cap: Facilitates filling while maintaining security.

90% load limiter valve: Prevents overloading of the tank.

1"1/2 bronze vent with flame arrestor: Ensures safe ventilation preventing fires.

External floating level indicator: Makes it easy to monitor fuel levels.

420 mm manhole with bolts and gasket: Allows easy internal access for maintenance.

Lifting eyes for empty handling: Ease the movement of the empty tank.

Bottom drain sleeve with safety cap: For periodic cleaning.

Grounding and equipotential bonding point: Ensures electrical safety during use.

1" external suction port with check valve: Ensures safe fuel suction.

1" ball valve: Provides precise control of fuel flow.

1" galvanized steel tube for connection to the dispenser unit: Complete with flexible terminal in 1" R1 tube.

Dispensing Options for FENZI G4 4900LT:

The FENZI G4 4900LT is compatible with various types of dispensers, adapting to the different needs of each user. This tank offers a versatile and reliable solution for diesel management. The available dispensers are:

Cassette: Equipped with an electric pump of 50 or 70 lt/min at 220 Volts.

Cube: Supplied with an electric pump of 50 or 70 lt/min at 220 Volts.

Columns: Available in mechanical or digital versions, ideal for refueling small users or private fleets, with flow rates of 50, 70, 90 lt/min and power supply at 220/380 Volts.

Models:

G4 E50 V

G4 E70 V

Available Accessories for FENZI G4 4900LT:

For greater customization and functionality of the tank, the following accessories are available:

Sunshade: Protects the cistern from direct sun exposure.

Side cover for the dispenser: Adds an additional level of protection.

Interchangeable cartridge filter kit: Facilitates filter maintenance.

Extension kit for all pump units: Extends the dispenser's reach.

OCIO digital level kit: For precise and digital fuel level monitoring.

The FENZI G4 Tank 4900LT is designed to provide a complete, safe, and versatile solution for diesel storage and distribution. Thanks to its construction quality and ease of use, it represents an excellent choice for various applications. This tank ensures optimal fuel management, guaranteeing safety and efficiency.
