

TELECO STERIL-AIR Battery-operated Air Purifier with Alim ext Usb

Reference: 20789

TELECO STERIL-AIR Battery-powered air purifier with external USB power supply

TELECO STERIL-AIR Battery-powered air purifier with external USB power supply: Breathe cleaner air wherever you are

The TELECO STERIL-AIR is a compact and portable air purifier, perfect for purifying the air in any environment, from your office to your car, thanks to its battery power supply with the possibility of charging via USB.

TELECO STERIL-AIR technology UV-A LED purifier: effectiveness and safety

Using the powerful TELECO LED UV-A technology with photocatalysis, STERIL-AIR Purifier effectively eliminates:

Organic contaminants: fine dust, pollen, dust mites

Bad odors: smoke, food, animals

Viruses and bacteria: including SARS-CoV-2

Volatile organic compounds (VOC): formaldehyde, benzene

Unique advantages of STERIL-AIR Purifier:

Safety: Teleco LED technology UV-A is safe for people and animals, without emitting ozone or other harmful substances.

Efficiency: Eliminates up to 99.998% of viruses and bacteria in just 30 minutes.

Continuity: Works 24 hours a day, ensuring always clean air.

Low consumption: Thanks to UV-A LEDs, it consumes very little energy.

Lifespan: UV-A LEDs have a lifespan of up to 30,000 hours, compared to 2,000-10,000 hours for mercury lamps.

Portable: Thanks to the battery and USB power supply, you can take it anywhere.

Chemical-free: Does not use chemicals harmful to the environment.

How does UV-A LED technology work?

Technical Features:

LED light: yes

Efficient in removing: organic contaminants, bad odors, viruses, bacteria, formaldehyde, benzene

Product type: UV-A LED air purifier

SANIFICATION: 24/7

Product dimensions (mm) 260 x 136 x 90

Battery type: Lithium-ion

Voltage: 7.4 V

Capacity: 9000 mAh

Running time: 8 hours of operation

Charging time (h): 5 hours

Charging socket: via USB cable connected to the supplied charger

Power supply: 230–240 V AC, 50–60 Hz

Use duration Charging: the device can remain connected to the mains while charging (LED indicators show the charging status)

The TELECO STERIL-AIR UV-A LED Purifiers emit ultraviolet light which, combined with a catalyst, triggers a reaction that degrades the contaminants present in the air, rendering them harmless.

Why choose TELECO STERIL-AIR purifier?

Certified: Efficacy tested on SARS-CoV-2 in the laboratory.

Silent: It works discreetly, without disturbing.

Easy to use: Just turn it on and place it in the room to be purified.

Compact design: Fits any space.

Breathe healthier air and live better with TELECO STERIL-AIR Purifier!

Technical Sheet

Product dimensions (mm)	260 x 136 x 90
Battery type	lithium ion
Feed Type	230–240 V AC, 50–60 Hz
Product type	UV-A LED air purifier
Durata	8 hours of operation
LED light	si

Efficiente nella Rimozione	Contaminatori-organici-Cattivi Formaldeide-Benzene	odori-Virus-Batteri-
SANITIFICATION	H24	
Charging socket	USB cable connected to the supplied charger	
Charging time [h]	5 ore	
Tensione	7,4 V	
capacity	9000 mAh	
Usage duration Charging	The device can remain connected to the mains while charging (LED indicators show the charging status)
