Dometic PerfectView BVS 71000 Blind spot camera with object detection

Dometic PerfectView BVS 71000: Your watchful eye on the road

The Dometic PerfectView BVS 71000 is a state-of-the-art turn assistance system designed to improve safety while driving, especially in manoeuvres such as turning and reversing.

Key features:

Comprehensive monitoring: Thanks to the included 7-inch AHD camera, you get a clear and sharp view of your vehicle's blind spots, eliminating potential hidden dangers.

Easy installation: The kit includes everything you need for installation, such as the LCD monitor, cables and fixing material. Its compact dimensions (75x215x75 mm) make it discreet and easy to integrate into any cab.

Versatility: The system is powered by both 12V and 24V, making it compatible with a wide range of vehicles.

Robustness: IP40/IP69k certification guarantees resistance to dust and water, making the system ideal for use outdoors and in adverse weather conditions.

Object detection: The camera is equipped with an object detection function, which alerts you to obstacles in the vicinity, further increasing safety.

Who is it for?

The Dometic PerfectView BVS 71000 is ideal for:

Commercial vehicle drivers: Trucks, buses, vans, etc.

Motorhome and caravan drivers: For greater safety when manoeuvring in confined spaces.

Industrial applications: In any situation where blind spots on a vehicle or machine need to be monitored.

At a glance:

The Dometic PerfectView BVS 71000 is a comprehensive and reliable turn assistance system designed to improve safety on the road. With its ease of installation, versatility and advanced functionality, it is the ideal choice for anyone looking for an effective solution for eliminating blind spots in their vehicle.
