

PRAMAC ATS automatic transfer switch for PMi4500

Reference: PY000A000C1

PRAMAC ATS AUTOMATIC TRANSFER SWITCH FRO PMi4500

The ATS (Automatic Transfer Switch) Control Panel ensures continuous and safe power supply by automatically switching between utility power and a backup generator in case of outages. Designed for residential, commercial, and industrial use, it guarantees efficiency, low noise, and full compliance with safety standards.

With features such as auto and manual modes, emergency stop button, and LED status indicators, this ATS panel delivers secure performance and seamless operation. Compact, durable, and easy to install, it is the ideal solution for reliable backup power management.

Technical Sheet

Frequency (Hz)	50
Voltage (V)	230
Charging voltage (V)	13.2
Product type	Switching Frame
Weight (Kg)	6.2
Dimensions [mm]	360×250×140
Nominal Voltage	50A
Number of control line port pins	7-core
