ITALTOWER BARROW EVO HT TorreFaro 4x240W LED

The ITALTOWER BARROW EVO HT TorreFaro 4x240W LED is a motorless lighting tower featuring a manual lifting system for the galvanized pole that can reach a maximum height of 5.5 meters. The product is equipped with four 240W LED lamps, which guarantee powerful lighting with a total of 160,000 lumens and an illuminated area of up to 7,000 square meters. The pole supports 350° rotation, ensuring a wide range of light orientation options.

The tower is stable thanks to 2 stabilizers, can be transported using a hand-towed trolley and does not include a generator, although the compartment for housing a generator (dimensions 900x600 mm) is included. The total weight is 192 kg and the product dimensions are 84 x 119 x 211 cm. The powder coating makes the product strong and durable. The tower guarantees stability in winds up to 60 km/h, making it suitable for various operating conditions.
