

GENMAC Combiflash RG201HO-M5 MOTOR-WELDER 7.1KVA Stage5

Reference: RG201HO-M5

GENMAC Combiflash RG201HO?M5 ENGINE-POWERED WELDER 7.1 kVA Stage 5

The **GENMAC Combiflash RG201HO?M5 ENGINE-POWERED WELDER 7.1 kVA Stage 5** is a compact and versatile petrol-powered welder, designed for professional use on construction sites and in the artisanal sector. It is equipped with an air-cooled Honda GX390 engine, with recoil start and a maximum power of 7.1 kVA (6.4 kW) in single-phase at 230 V, 50 Hz, ideal for MMA welding with adjustable current up to 200 A (200 A at 35% and 180 A at 60%).

The 19-litre petrol tank guarantees autonomy of approximately 9 hours of work, while the compact frame (810 × 550 × 680 mm) and low weight of 95 kg make the machine easy to transport and position. The silenced (not super-silenced) version helps reduce noise levels during use, while maintaining high performance and compliance with Stage 5 emissions regulations for the engine.

Technical Features:

Maximum three-phase power (kW): 6.4
Maximum three-phase power (kVA): 7.1
Fuel: petrol
Frequency (Hz): 50
Voltage (V): 230
Engine: Honda GX390
Engine speed (rpm): 3000
Starting: recoil
Cooling: air
Welding current (A): 200 – 35% / 180 – 60%
Fuel tank capacity (L): 19
Autonomy (h): 9
Length (mm): 810
Width (mm): 550
Height (mm): 680
Dry weight (kg): 95
Silent: yes
Super silent: no
Maximum current (A): 200
Engine brand: Honda
Emissions standard: Stage 5
Phase type: single-phase

Technical Sheet

Phase	Single phase
Maximum power three phase (KW)	6.4
Maximum power three phase (KVA)	7.1
Fuel	Gasoline
Frequency (Hz)	50
Voltage (V)	230
Engine	Honda GX390
Emissions Regulations	Stage 5
Engine rpm (rpm)	3000
Starting system	Pull starter
Cooling	Air
Welding current (A)	200 - 35% / 180 - 60%
Fuel tank capacity (L)	19
Running time (h)	9
Length (mm)	810
Width (mm)	550
Height (mm)	680
Dry weight (Kg)	95
Silenced	Yes
Super silenced	No
Engine manufacturer	Honda
