

GENSET MG 6020 DM - VEHICULAR GENERATOR 7.5 KVA

Reference: MG 6020 DM

GENSET MG6020DM VEHICULAR GENERATOR 7.5KVA

The GENSET MG6020DM 7.5KVA Vehicular Generator represents an excellent choice in the world of Vehicle-Mounted Generators, designed for those who require reliability, power, and quiet operation in a single device. This GENSET MG6020DM StageV has been specifically engineered for installation on special vehicles, such as service trucks, motorhomes, trucks, caravans, and Civil Protection rescue vehicles.

The GENSET MG6020DM combines high performance with a compact and lightweight structure, making it the ideal solution for any mobile requirement.

Main Features of the GENSET MG6020DM:

Nominal Power: 7.5 kVA
Engine: Kubota 3000 RPM, compliant with Stage V standards
Power Supply Type: Single-phase
Control System: Remote control panel
Muffler: Integrated for optimal noise reduction

The GENSET MG6020DM has been developed to offer efficient and smooth operation under all conditions. With a nominal power of 7.5 kVA, this Vehicular Generator is capable of providing reliable energy to a wide range of electrical equipment, ensuring operational continuity in any situation. The Kubota engine, known for its reliability and durability, operates at 3000 RPM, fully complying with StageV regulations for low environmental impact.

One of the main advantages of the GENSET MG6020DM is its exceptional quietness. Thanks to the integrated muffler, the generator maintains an extremely low sound power level of only 87 Lwa. This makes it ideal for use in contexts where acoustic comfort is essential, such as in recreational vehicles and rescue vehicles, ensuring a quiet and disturbance-free environment.

The GENSET MG6020DM is equipped with a practical remote control panel, allowing for simple and safe management of the generator directly from inside the vehicle. The compact dimensions of 941 x 550 x 600 mm and the contained weight of 190 kg make installation easy without compromising the available space on the vehicle. This GENSET MG6020DM Vehicular Generator is the perfect solution for those who need a powerful generator that is also easily integrable into any vehicle configuration.

Detailed Technical Specifications GENSET Vehicular Generator:

Nominal Power: 7.5 kVA
Power Supply Type: Single-phase
Engine: Kubota, 3000 RPM, Stage V
Sound Power Level: 87 Lwa
Weight: 190 kg
Dimensions (L x W x H): 941 x 550 x 600 mm
Control System: Remote control panel
Muffler: Integrated for noise reduction

Technical Sheet

Phase	Single phase
Maximum power single phase (KW)	6
Maximum power single phase (KVA)	7.5
Fuel	Diesel
Frequency (Hz)	50
Voltage (V)	230
Engine	KUBOTA Z482
Emissions Regulations	Stage 5
Engine rpm (rpm)	3000
Starting system	Electric
Engine capacity (cm ³)	479
Number cylinders	2
Cooling	Air
Alternator	Synchronous
Protection degree	IP23
Motor insulation class	H
Consumption (L/h)	2.6 at 75% of the load
Acoustic power	87 dB(A)
Acoustic pressure	62 dB(A) at 7 m
Length (mm)	941
Width (mm)	550
Height (mm)	600

Dry weight (Kg)	190
Silenced	Yes
Super silenced	Yes
Product type	Generator
ATS Switch device	No ATS
Voltage regulator	No
Engine manufacturer	Kubota
