

## VTE PAGURO 14000 Marine Generator 14 kVA 50 Hz Supersilenced

Reference: AP14023050S0

### VTE Marine Generator Set PAGURO14000 super-silenced 14 KVA

PAGURO14000 MARINE GENERATOR 14 KVA single-phase VTE Marine Generating Set, with Lombardini diesel-powered 3000 rpm engine and water-cooled with stainless steel water/air heat exchanger.

All parts in contact with seawater are made of 316 L stainless steel.

Thanks to the water-cooling and double anti-vibration system, vibrations and noise emissions are very low, making the VTE PAGURO14000 supersilenced and among the lowest noise emissions marine generators in its range.

The compact, space-saving and manoeuvrable VTE PAGURO14000 is suitable for use on small boats at 3000 rpm, giving power to your entire vessel.

#### Technical characteristics:

Fuel: Diesel  
Engine revs (rpm): 3000  
Phase type: Single-phase  
Single-phase continuous power (KVA): 14  
Frequency (Hz): 50  
Voltage (V): 230  
Engine: Lombardini LDW 1003  
Starter: Electric  
Silenced: Supersilenced 54 dB(A)  
Cooling: Fresh water with heat exchanger  
Dry weight (kg): 210  
Length (mm): 860  
Width (mm): 580  
Height (mm): 650

#### Motor

The VTE PAGURO14000 marine generator is built with the efficient and reliable Lombardini diesel-powered engine. This PAGURO14000 marine generator designed with a stainless steel water/air heat exchanger.

#### Alternator

The alternator of this marine generator is synchronous, brushless and with class H insulation. The capacitor regulation makes the VTE PAGURO14000 marine generator set ideal for powering sensitive electronic devices that fear voltage and current fluctuations because it makes the voltage stable and the output current clean.

It is also water-cooled via an AISI 316 L stainless steel heat exchanger.

Included with the PAGURO14000 alternator is the battery charger for the dedicated 12 V / 8 A starter battery.

#### Soundproofing capsule and double anti-vibration system

The reinforced fibreglass capsule with composite layering and the high-density soundproofing material coating make this generator set one of the most silent compared to its competitors.

The capsule allows installation even in cramped spaces, thanks to its composition: two upper parts and one lower part.

Finally, the dual anti-vibration system, with 4 soft inner mounts and 4 semi-elastic outer mounts, makes the PAGURO14000 stable even in less calm waters and silenced, so you can enjoy your navigation without further worries.

If you are looking for a product similar to the PAGURO14000 genset or with different characteristics, you can consult our entire catalogue of marine gensets [CLICK HERE](#).

## Technical Sheet

Phase	Single phase
Continuous power single phase (KW)	11
Continuous power single phase (KVA)	14
Fuel	Diesel
Frequency (Hz)	50
Voltage (V)	230
Engine	Lombardini LDW1003
Engine rpm (rpm)	3000
Starting system	Elettrico
Number cylinders	3
Cooling	Fresh water with heat exchanger
Alternator	Synchronous, brushless
Consumption (L/h)	0.35
Acoustic pressure	54 dB(A)
Length (mm)	860
Width (mm)	580
Height (mm)	650
Dry weight (Kg)	210
Silenced	Yes
Super silenced	Yes
Product type	Generator
Engine manufacturer	LOMBARDINI
