

BINDA PUMP VOLTIANA GP V0

Reference: GPV0GB

BINDA, continuing its traditional production of hand pumps, which began in 1919, aiming at constant technological evolution of the product, satisfaction of its customers' needs, respect for the environment, and always guaranteeing an excellent quality/price ratio for its products, has achieved world leadership in fluid management using manual pumping systems, offering the most complete range of pumps and complementary items available on the international market. BINDA, a RINA-certified and official NATO supplier, guarantees high production quality standards thanks to production and control systems that comply with the aforementioned military regulations.

G.P. VOLTIANA: Pumping unit consisting of the VOLTIANA hand pump, suction hose, drum connector, outlet elbow, flexible dispensing hose, and anti-drip nozzle.
