BINDA SUPER LARIO 4 G-be

The BINDA SUPER LARIO piston hand pump is a powerful and versatile product, ideal for a variety of applications, including:

Transferring water, fuel, oil and other liquids

Cleaning cisterns and tanks

Irrigation of gardens and vegetable gardens

Filling swimming pools and tanks

Double-acting piston pump: allows you to pump water on both suction and discharge, with greater efficiency than single-acting pumps.

Self-priming: allows you to suck water from a depth of 8 metres, without the need for pre-filling.

Cast iron or bronze body: guarantees long life and resistance to atmospheric agents.

Diameter of 1 1/2": allows large quantities of liquids to be transferred quickly and efficiently.

Maximum flow rate of 80 litres per minute: meets the needs of small and medium-sized pumps.

Weight of 18.5 kg: allows the pump to be easily transported.
