

## HONDA HSS 970A ETD Snowthrower electric start 6.3 kW

Reference: HSS 970A ETD

### HONDA HSS970AETD SNOWTHROWER ELECTRIC START 6,3KW

Honda HSS970AETD Snowthrower electric start to clear up to 50 tons of snow per hour and battle against 51 inches of snow, capable of delivering 6,3KW of power. Honda's state-of-the-art HSS970AETD are at the forefront of shoveling. They can shovel an area the size of two tennis courts with a foot of snow in less than ten minutes.

Honda HSS970AETD Snowthrower electric start are big, red and powerful, but they're also packed with smart features. The Honda HSS970AETD's tracks offer increased traction in most snow conditions, making this snowplows ideal for rough terrain and gravel paths.

All Honda HSS970AETD Snowthrower electric start feature an electronically controlled exhaust chimney to facilitate ejection of snow in any desired direction, ideally as far away as possible.

Throwing snow a distance of 16 meters requires a lot of effort and it would take a lot of people with shovels to do all the work; again, the Honda HSS970AETD 6,3KW Snowthrower with GX270 4-stroke engine will get the job done in no time. This engine is as reliable as it is powerful and is designed to produce low noise, vibration and emissions, while also ensuring low fuel consumption. And it has no problems with cold starting either.

A single cubic meter of compacted snow can weigh up to 100 kg, and before you know it, can quickly accumulate and put a strain on the structure. Melting ice also poses problems. In this case, it is leaks and standing water on the roof that can damage the property. To avoid problems for buildings with flat roofs, those who own a Honda take it to the roof of their home, where once again these snowplows shine in terms of grip and maneuverability.

This HONDA HSS970AETD Snowthrower electric start has a unique hour meter function that tells you when the next service is due and when routine maintenance is due.

#### **TECHNICAL FEATURES HONDA HSS970AETD ELECTRIC START 6,3KW:**

Net power: 6,3KW  
Fuel: Gasoline  
Engine: Honda GX 270  
Starting system (AMP): Electric / Manual recoil starter  
Working width: 710 mm  
Working height: 510 mm  
Maximum capacity: 50 t/h  
Maximum jet distance: 16 m  
Jet direction adjustment: 2-stage electric  
Transmission: Hydrostatic

Traction type: Tracks  
Consumption: 2.18 Lt/h  
Acoustic power: 102 dB(A)  
Length: 1500 mm  
Width: 725 mm  
Height: 1170 mm  
Weight: 120 Kg  
Speed (km/h): 0-3.06

## Technical Sheet

Fuel	Gasoline
Engine	Honda GX270, 4 stroke
Engine rpm (rpm)	3600
Ignition	Recoil
Starting system	Manual / Electric
Working width (mm)	710
Working height (mm)	510
Capacidad máxima (t/h)	50
Speed (Km/h)	0-3.06
Throwing distance (m)	16
Discharge chute adjustment	2 power stages
Transmission	Hydrostatics
Screw height adjustment	Lever height adjustment of the cochlea
Net power (kW)	6.3
Fuel tank capacity (L)	5
Consumption (L/h)	2.27
Running time (h)	2.2
Acoustic power	102 dB(A)
Length (mm)	1500
Width (mm)	725
Traction type	Track laying
Engine manufacturer	Honda
