

TELAIR TIG 3000B COMPACT INVERTER GENERATOR WITH STANDARD ASP

Reference: 06600

TELAIR TIG 3000B COMPACT INVERTER GENERATOR WITH STANDARD ASP

TELAIR TIG 3000B vehicular generator of 2,8 KW is a new generation single-phase current generator of 230 V with voltage regulator with **inverter** technology and powered by a gasoline engine.

A state-of-the-art electronic speed control system has enabled the TELAIR TIG 3000B vehicle generator to achieve an extremely low **noise** level combined with very low diesel consumption. The voltage regulator with inverter technology allows the TELAIR TIG 3000B vehicular generator to generate a very stable voltage with a pure sine wave and also makes possible the coupling of 2 TELAIR TIG 3000B vehicular generators in parallel thus doubling the power supplied.

The control panel with inverter technology allows the TELAIR TIG 3000B vehicular generator to generate a very stable voltage with a pure sine wave.

The remote control panel included in the vehicular generator TELAIR TIG 3000B has a modern design and equipped with a graphic display, it provides the user with all the information related to the operation of the vehicular generator, control of the oil level, operating temperature and current consumption with automatic shutdown of the engine in case of non-standard values.

It allows to select the operation of the vehicle generator TELAIR TIG 3000B between manual and automatic (in case of use also as battery charger) and it is also equipped with a BOOST key that can be used when a temporary power increase is needed for a very high electric load. It is also equipped with a special interface that will allow in the future, to use the new Teleco-Hub App to remotely turn on, turn off and control the 3000B vehicular generator via an iOS or Android smartphone.

TECHNICAL SPECIFICATIONS TELAIR TIG 3000B

Phase Type: Single Phase
Maximum Power: 2.5 KW
Voltage: 230 V
Frequency: 50 Hz
Motor: YAMAHA MZ 175
Motor RPM: 2700 / 3900 rpm
Fuel: Gasoline
Voltage Regulator: Inverter
Start: Electric
Fuel Consumption: 1.2 lt/h
Acoustic pressure: 58 dBA @ 7m
Width: 275 mm
Length: 515 mm
Height: 390 mm
Weight: 52 Kg

If you are looking for a vehicular generator similar to the TELAIR TIG 3000B then we suggest you browse our extensive catalog of [vehicular generators](#).

Technical Sheet

Phase	Single phase
Maximum power single phase (KW)	2.7
Fuel	Gasoline
Frequency (Hz)	50
Voltage (V)	230
Engine	Yamaha MZ175
Engine rpm (rpm)	2700 / 3900
Starting system	Electric
Consumption (L/h)	1.2
Acoustic pressure	54 ÷ 58 dB(A) at 7 m
Length (mm)	275
Width (mm)	515
Height (mm)	390
Dry weight (Kg)	52
Silenced	Yes
Super silenced	Yes
Product type	Generator
Voltage regulator	Inverter
Engine manufacturer	Yamaha
