MARINE GENERATOR FISCHER PANDA 85-4PMS SUPERSILENCED 85.9 KVA

Generator for boats Fischer Panda 85-4PMS three-phase 85.9 KVA with 1500 rpm motor. The Fischer Panda 85-4PMS three-phase marine generator is built with a soundproof cabin that reduces noise emissions and makes it super-silent. The Fischer Panda 85-4PMS three-phase marine generator is built with a Deutz 1500 rpm diesel-powered engine. The Fischer Panda 85-4PMS three-phase marine generator alternator is 4-pole with H insulation class and water-cooled. Thanks to its compactness, size and low weight, the Fischer Panda 85-4PMS three-phase marine generator is also perfect for installation on boats with limited space. The excellent quality of its components make this marine generator set one of the best in its field also in terms of quality/price ratio.

Based on the rugged Fischer Panda 85-4PMS generator set, these heavy duty (HD) versions operate at 1500 rpm and 50 Hz frequency.

The Fischer Panda 85-4PMS marine generator is enclosed in a super-quiet soundproofed capsule.

The generators are heavier than standard PMS generators. They use a heavy-duty diesel engine and, because they run at 1500 rpm, have a 4-wire coil, which also means that the alternator has a heavier 4-pole construction.

The heavy-duty construction and low rpm results in a durable and quiet generator set.
